Online FDP Organized on The Importance of Patents and its Commercialization

On 23rd April 2022, Saturday, IQAC had organized an Online Faculty Development Programme on “**The Importance of Patents and its Commercialization**”. The aim of organizing this FDP was to disseminate the knowledge regarding the importance of patents, its protection and why it is mandatory for commercialization for an invention. The resource person was Ms. Latika Khanduja, Founder and Director of IPLOEA, the IP perfectionist having more than 10 years of experience.

Dr. Dalima Parwani, Principal said that patent is a very crucial aspect and grant of a patent acts as a trigger to increase the likelihood of manufacturing activity and it boosts the morale of an inventor to contribute more efficiently by avoiding needless duplication of research efforts.

The resource person Ms. Latika Khanduja said that there is an imperative need to better understand the obstacles which patents might generate to the diffusion of technology, how to overcome and how patents may be used in contracts to ensure fluidity in technology markets. She highlighted on different types of patents and specially focused on copyrighting and the laws of infringement. She further elucidated on the difficulties faced in identifying the companies who need your invention to quash it.

Prof. Madhu Singh coordinated the programme and Prof. Vibha Khare proposed the vote of thanks.

21st to 23rd April 2022
